

National Vocational Certificate in Road Construction and Maintenance (Level 2) (Road Marking – Labourer)

level of qualification: 2

	Compulsory	Elective
level 1 credits available	7	-
level 2 credits available	46	-
minimum totals required for whole qualification	53	-

registration date: 2011

scheduled review date: 2016

body responsible for the qualification: Roads Authority

other bodies whose unit standards are included in the qualification:

Namibia Training Authority - NTA

1 purpose

This qualification is a direct response to the continuous effort of the Roads Authority to address the lack of adequately skilled human resources in road construction and maintenance. The intention of this qualification is to provide learners with the knowledge, understanding, skills and application techniques that they need to be successful in their work as qualified Labourer in Road Marking. It recognises people who have the competencies required for performing road marking operations as part of road construction and maintenance tasks.

The main focus of this qualification is the attainment of the required outcomes of learning, not the how, when or where learning occurred. Some people applying to attain this qualification may currently be competent in one or more of the unit standards and should then be given the opportunity to apply for recognition of prior learning.

The unit standards making up this qualification ideally expected learners to have basic communication and numeracy skills.

This qualification represents a stage of progression to other National Vocational Certificates in Road Construction and Maintenance Level 2, 3 and 4.

2 regulations for the qualification

2.1 summary of qualification requirements

This qualification will be awarded to people who are credited with the requirements of the compulsory section.
