1 purpose

This qualification recognises people who have the competencies required for performing rigging tasks. It is awarded to people who have demonstrated the skills and knowledge required to practice rigging operations on a work sites.

This qualification is designed to be accessible and flexible. There are no entry requirements for this qualification.

The main focus is on the outcomes of this qualification, not the how, when and where learning occurred. Some people applying to do this qualification may currently be competent in one or more of the unit standards and should then be given the opportunity to apply for recognition of prior learning.

This qualification leads to the National Vocational Certificate II in Rigging.
