1. Description of the qualification

1.1. Purpose

This Qualification has been developed to assist with the advancement of people across Firefighting and Rescue Operations industry in which firefighting and rescue operations are carried out. The intention of this qualification is to assist:

- Those who have been in the workplace for a long time, by using the recognition of prior learning process to assess and recognise workplace skills acquired without the benefit of formal education and training;
- New entrants, by describing the learning outcomes required to participate effectively, e.g. in a structured workplace programme;
- Education and training providers, by providing guidance for the development of appropriate learning programmes and assessment documentation;
- Employers, by enabling skills gaps to be identified and addressed ensuring that productivity levels are increased and business objectives achieved.

As a result, this qualification provides opportunities for self or paid employment acting as a reward for contributions to society by facilitating social and economic transformation, empowerment and general upliftment of firefighting and rescue operations and country in general.

1.2. Outcome for whole qualification

Holders of this qualification are able to perform administrative tasks, perform station duties, conduct awareness campaigns for fire and emergency services, demonstrate operation of firefighting and rescue tools and equipment, maintain personal protective equipment, maintain fire service and rescue equipment, perform basic fire prevention, adhere to scene safety and command at emergency incident, maintain safe work environment and operational response, demonstrate knowledge of water supply sources, water equipment and accessories.
