## 1. Description of the qualification

### 1.1. Purpose

This Qualification has been developed to assist with the advancement of people across Firefighting and Rescue Operations industry in which firefighting and rescue operations are carried out. The intention of this qualification is to assist:

- Those who have been in the workplace for a long time, by using the recognition of prior learning process to assess and recognise workplace skills acquired without the benefit of formal education and training;
- New entrants, by describing the learning outcomes required to participate effectively, e.g. in a structured workplace programme;
- Education and training providers, by providing guidance for the development of appropriate learning programmes and assessment documentation;
- Employers, by enabling skills gaps to be identified and addressed ensuring that productivity levels are increased and business objectives achieved.

As a result, this qualification provides opportunities for self- or paid employment acting as a reward for contributions to society by facilitating social and economic transformation, empowerment and general upliftment of firefighting and rescue operations and country in general.

### 1.2. Outcome for whole qualification

Holders of this qualification are able to establish incident command, conduct firefighting and rescue operations stakeholder consultations, conduct fire risk surveys and safety inspections, manage crew during wild fire suppression, operate specialised aerial hydraulic platform' Provide basic life support, manage crew at incidents involving hazardous materials and supervise fire station duties.
