

National Vocational Certificate in Water Supply (Level 4)
--

NQF Level of qualification: 4

Total credits available: 55

Total credits required: 55

	Compulsory	Elective
Level 4 credits available	39	None
Level 5 credits available	16	None
Minimum totals required	55	None

Registration date: 29 November 2018

Scheduled review date: 2023

Body responsible for the qualification: Namibia Training Authority - NTA

Other bodies whose unit standards are included in the qualification: None

1 PURPOSE

This qualification recognises people who have the competencies required for performing water supply planning, implementing, operations and maintenance tasks. It is awarded to people who have demonstrated the skills and knowledge required to work effectively in the water supply and sanitation industry. They are competent to operate and maintain large specialised municipal water supply works, design water demand management and district metering systems and provide community-based water supply and sanitation capacity development services. Finally, they also have a sound understanding of desalination water treatment operations and the ion-exchange treatment process.

This qualification includes electives with a minimum total of 4 credits.

The entry requirements for this qualification are satisfactory completion of the National Vocational Certificate in Water Supply (Level 3) or the National Vocational Certificate in Sanitation (Level 3) or the recognition of prior learning equivalent together with the required English and Mathematics skills necessary for this level of operations.

2 REGULATIONS FOR THE QUALIFICATION

2.1 Summary of qualification requirements

This qualification will be awarded to people who are credited with a minimum of 55 credits and have met the requirements of both the compulsory and elective sections, as well as requirements for Workplace Integrated Learning (WIL) as laid out in the National Policy on Work-Integrated Learning for Technical and Vocational Education and Training (TVET).

2.2 Detailed qualification requirements

Compulsory

All the unit standards listed below are required.

FIELD: Physical Planning and Construction
Subfield: Water Supply and Sanitation
Domain: Water Supply and Sanitation Education

Unit ID	Unit Standard Title	Level	Credits
1835	Conduct capacity development for small-scale sanitation facilities	4	8
1837	Conduct capacity development on water use and sanitation-related risks	4	8

FIELD: Physical Planning and Construction
Subfield: Water Supply and Sanitation
Domain: Water Supply and Sanitation Operations

Unit ID	Unit Standard Title	Level	Credits
1836	Demonstrate an understanding of desalination water treatment processes	4	15
1838	Plan and implement district metering	4	8
1839	Implement a water demand management system	5	12
1840	Demonstrate knowledge on ion-exchange treatment processes	5	4

3 CREDIT RECOGNITION AND TRANSFER ARRANGEMENTS

Credits for any version of a unit standard of the same identification number will be recognised in the award of this qualification.

4 SPECIAL ARRANGEMENTS

4.1 Providers seeking accreditation to deliver this qualification must meet the following special arrangements.

4.1.1 This qualification will be offered to trainees **either** including a period of 6 month of **industrial / job attachment**, or as an **apprenticeship scheme** of a duration determined and agreed upon by the employer and the training provider on a ratio of 70/30 (70% at workplace and 30% at training institution) basis.

Industrial/job attachment is defined as a period in a workplace setting where a trainee obtains structured practical experience in a specific occupation in order to complement competencies acquired during training at a technical vocational training provider (TVTP).

Apprenticeship refers to the system of work integrated learning, where an apprentice is employed by a company on contractual basis, earning a monthly salary, learning and working side-by-side with an experienced mentor.

In this case the employer must be an NTA approved entity (company) to register apprentices and has to identify a suitable training provider to provide the apprentice with the opportunity to gain skills and knowledge from theoretical training.

Employers and training providers are encourage to consult the **National Policy On Work-Integrated Learning (WIL) for Technical and Vocational Education and Training (TVET) Sector** for further details on WIL implementation.

4.1.2 Providers involved in the assessment of this qualification and the associated unit standards must comply with the national assessment framework for the TVET system up to and including level 5 of the National Qualifications Framework. Assessment will include performance and achievement assessment acquired through work integrated learning periods.

Assessment arrangements apply to all occupations and industries which are encompassed in the technical vocational education and training sector.

4.1.3 Providers of this qualification and the associated unit standards must be registered and/or accredited.

4.1.4 Providers of this qualification and their associated unit standards must have access to all equipment and facilities detailed in the tools and equipment list of the relevant training program.

4.2 Competencies covered in this qualification may be assessed through Recognition of Prior Learning (RPL).
